

4th Australasian Ocular Melanoma Alliance *Virtual* Summit

9am - 5pm AEST
Saturday, 24 June 2023

[Register here](#)

Australasia's Premier Ocular Melanoma Meeting

The 2023 Australasian Ocular Melanoma Alliance (AOMA) Summit will bring together healthcare professionals, researchers and consumers in ocular melanoma to share the latest research findings and facilitate national and international collaborations for this rare and often devastating cancer.

This free online event includes a scientific program and presentations focused on consumer involvement:

- Diagnosis and clinical management
- Clinical trials and registries
- Laboratory and translational research
- Consumer and clinician discussions

International Speakers

- **Prof Roger Olofsson Bagge**, Gothenburg University and Sahlgrenska University Hospital, Sweden
- **Sara M. Selig, MD, MPH**, Melanoma Research Foundation, USA
- **Marlana Orloff, MD**, Thomas Jefferson University Hospital, USA
- **Dr Emine Kilic**, Erasmus MC, the Netherlands

These world experts will enrich the cutting-edge program, joining influential leaders in ocular melanoma from Australian and New Zealand institutions.
